OF EDITORIAL CONTENT—2nd HALF 1969

How to Use this Index

Every article appearing in Business Week during the last six months of 1969 is comprehensively indexed in this volume. All articles are indexed alphabetically by subjects and by the names of individuals, private businesses and government agencies in all cases where such were either the subject of the story reported or had a primary relationship to the topic covered. The following paragraphs are offered as a guide to the index.

Business Organizations. Industries are indexed under their simple designations such as: "Aviation," "Shipbuilding," "Textiles," etc. In addition, all articles having reference to a private company will be found under that company's name.

Labor. General labor news is indexed under such broad headings as "Wages," "Employment," "Labor," and the like. References should also be made to the various government labor agencies and to individual companies. Because the full names of many trade unions are not generally well known, trade union items are indexed by parent organization, under "AFL-CIO," or "Independent Unions," and then in turn under subheads by the trade or industry in which they operate. There is one exception: the railroad brotherhoods are indexed only under "Railroads—Labor."

Government. The permanently established departments of the Federal Government will be found under "D," "Department of the Treasury," "Department of Defense," and "Post Office Department."

Independent Commissions and Special Emergency Agencies. These will be found arranged alphabetically by their established names. In addition, they are also indexed under their field of activity.

Reference Dept. Many individual headings suggest other entries (See also . . .) which may be consulted in looking for specific articles. If, however, you cannot find a specific article, or you would like any general information about material which Business Week has published, do not hesitate to make direct inquiry by mail or telephone to Business Week Library, 330 West 42nd Street, New York 10036, N. Y.; telephone 971-3298.

Special Reports

A jumping market below the border: Burgeoning consumer goods boom in Mexico has touched off a scramble as U.S. companies vie for a piece of the action (with cover, map, charts, and illus) p120, Jul.12

Where we go beyond the moon: TV's biggest audience ever. Where home is like prison Suits that sell for $100,000. Putting space in rule of law. The one flag on the moon (with map and illus) p98, Jul.19

The tangled mess in aviation: Chaos grows as airlines, pilots, and airports squabble. A Nixon program would spend $500-million a year for a decade. But an Apollo-type management effort is needed (with cover, charts and illus) p52, Aug.9

Business responds to consumerism: Spurred by fear of customer revolts and passage of more regulatory laws, industry finally is offering simpler and more reliable products, better service, and new warranties (with cover and illus) p94, Sept.6

Is a breakthrough near in housing? Broad spectrum of companies will bid to participate in HUD's plan to mass-produce low-cost homes. The real hurdle now is public acceptance of the idea (with cover, table and illus) p80, Sept.13

Why Detroit is wary of the 1970s: A tide of consumerism and concern over safety and pollution will lead to a much bigger government say in Detroit's practice (with cover, chart, and illus) p110, Sept.20

Where the action is in electronics. The integrated circuit business will be a $750-million industry by next year, and companies are jockeying for position in the race for growth (with illus) p86, Oct.4

Why the oil giants are under the gun: Rising nationalism, sliding profits, and scrappy independents are hurting the majors. Fast-stepping operators are likely to profit most from the new oilfields of the 1970's (with map, table, chart and illus) p82, Oct.25

The battle that business has to win: Some companies have launched bold attacks on social problems: poverty, overcrowding, pollution. But others have flagged. One major lesson: Much remains to be done (with cover and illus) p63, Nov.1

Cable TV leaps into the big time: Designed originally to beam TV signals into rural areas, cable stands on the threshold of revolutionizing electronic access into the American home (with cover, table and illus) p100, Nov.22

Why the utilities can't meet the demand: Spiraling consumption, coal shortages, lack of labor, and late and faulty equipment are behind power cuts, which look as though they will get worse before they get better (with cover, chart, table and illus) p48, Nov.29

The Seventies: A super but seething decade (with charts, tables and illus) p76, Dec.6
